Psychological Evaluation:

Nalini is a shrewd broker of a variety of goods. As a result she has grown to be cautious during the brokering of deals to the near point of paranoia. Often this leads her to send others to complete transactions if her presence is not necessary. She has a strong sense of justice and will react violently and swiftly if a deal is not met honorably.

Tactical Skills Evaluation:

Nalini is proficient in setting up and detecting ambushes and has excellent reaction time to incoming fire. She is often underestimated due to her relatively petite feminine nature. She is an excellent marksman and favors using a specialized Python HP.
